

COUSCOUS

The authentic flavor and texture of this beloved traditional dish are preserved through the advanced, fully-automated Davidovitch production process. Modern manufacturing technology creates uniformity of color, size, and other essential qualities, ensuring that every customer receives products of the very highest standard.

Couscous Range

We offer couscous made from three types of wheat – regular, whole wheat, and durum – to serve a range of tastes and preferences. Davidovitch is the only brand in Israel to produce durum wheat couscous, which is very popular internationally.

Storage & Shelf Life

Up to 12 months in a cool, dry place.
